One Bedroom One Bath Apartment (894 sq ft)

BEST ONE BEDROOM...

Hands down this is the best one bedroom floor plan you will ever have the opportunity to rent. With large bay windows throughout the living room, the light and space makes this one bedroom more like a home. A second bathroom, with full size washer and dryer, puts this apartment over the top! Providing privacy for you is a master bedroom with an additional attached bathroom. This is the one bedroom you can't miss!
